

# KRISTIN STOCKLEY

## Full Stack Developer

---

### SKILLS

HTML | CSS | JavaScript | React | Express | MongoDB | Node.js | AWS S3 | Bootstrap | Heroku | Git | GitHub

### PROJECTS

#### refurred

July 2023 - September 2023

Collaborated with a team of two software developers to architect a MERN-based dog breed selector and directory

- Taking a central role in designing and implementing a user-friendly, responsive front-end, significantly improving the application's overall usability and accessibility
- Utilizing Git control, maintaining a detailed commit history to track project progress and enabling frictionless teamwork

#### CountMeIn

June 5 - 12, 2023

Solely led the development of a full-stack MERN application allowing users to track and anticipate upcoming events

- Executed comprehensive CRUD operations on MongoDB, ensuring efficient data management and accessibility
- Dynamically utilized React's useEffect hook to continuously update real-time data, ensuring precise countdowns

#### SwiftSeats

May 15 - 19, 2023

Independently developed a full-stack Django project to manage Taylor Swift concerts, ticket wish lists, and photos

- Employed AWS S3 for secure user photo storage, enabling efficient media management
- Implemented complex relationships between models, including many-to-many and one-to-many relationships, to establish associations and enable seamless data retrieval and manipulation

### EXPERIENCE

#### **Harvest Growth Strategies — Full Stack Developer**

December 2023 - Present

- Sole developer responsible for all technical decisions and implementations across multiple projects, ensuring alignment with business goals and requirements under tight deadlines
- Created and deployed QR code-based digital menus for local restaurants, including [The Point of Corpus Christi](#) and [La Playa By The Bay](#), using the MERN stack, significantly enhancing customer experience and streamlining operations
- Designed and implemented an intuitive admin dashboard for menu management, enabling seamless CRUD operations on menu items, resulting in efficient real-time updates

#### **Oigetit — Quality Assurance Analyst Intern**

September 2023 - December 2023

- Conduct comprehensive quality assurance testing on the Oigetit website, meticulously identifying and thoroughly documenting software bugs
- Play a pivotal role in improving the user interface by providing invaluable insights and well-researched recommendations, resulting in enhanced user experience and engagement

#### **FASTSIGNS of Corpus Christi — Promotional Products & Sales Manager**

June 2019 - February 2023

- Orchestrated the management of a promotional products department including drinkware, office items, and event giveaways, resulting in a 15% growth in brand equity
- Spearheaded the implementation for a paperless workflow system resulting in increased team efficiency, productivity, and 70% reduction in paper usage

### EDUCATION

**General Assembly** — Software Engineering Immersive

March 2023 - June 2023

**University of North Texas** — Bachelor of Science, Merchandising

August 2009 - December 2012
